

JavaScript 1.8: Classes and Data Structures

Table of Contents

INTRODUCTION	INTRO-1
Prerequisites	INTRO-2
Installing the Practice Files	INTRO-3
Software Requirements	INTRO-3
JavaScript Resources	INTRO-3
The Chapter Files	INTRO-3
Installation	INTRO-4
About the Author	INTRO-5
OBJECTS AND DATA STRUCTURES	5-1
Creating and Manipulating Objects	5-2
Ways to Create Objects	5-3
Using Objects	5-13
Accessing Object Properties	5-13
Treating an Object as an Array	5-15
Property Getters and Setters	5-18
Object Inheritance	5-19
Working with Properties	5-24
Arrays	5-28
Creating Arrays	5-28
Working with Array Elements and Indexes	5-31
Array Methods	5-37
Regular Expressions	5-38
Simple Pattern Expressions	5-38
The RegExp Object	5-42
LAB 5: OBJECTS AND DATA STRUCTURES	5-48
Lab 5 Overview	5-49
Create a Contact Object	5-50
Modify the Contact Object	5-56
JAVASCRIPT FUNCTIONS	6-1
Introduction to Functions	6-2
Using Functions	6-3
Defining Functions	6-3
Function Invocations	6-13

Passing Data to a Function.....	6-24
Advanced Function Features.....	6-31
Treating Functions as Object Values	6-31
Closures.....	6-37
LAB 6: JAVASCRIPT FUNCTIONS.....	6-45
Lab 6 Overview.....	6-46
Build a Web Page Dynamically.....	6-47
Create a Mortgage Function Calculation	6-51
OBJECT-ORIENTED JAVASCRIPT	7-1
Introduction to Object-Oriented JavaScript.....	7-2
Creating JavaScript Objects	7-3
Using the Object Constructor	7-3
Using an Object Literal.....	7-9
Creating an Object Hierarchy with Prototypes	7-12
Custom Object Constructors.....	7-17
Creating an Object Constructor	7-17
Creating a New Constructor Prototype Object.....	7-22
Dynamically Changing the Prototype of a Class.....	7-25
Object Identity with Constructors	7-27
LAB 7: OBJECT-ORIENTED JAVASCRIPT.....	7-33
Lab 7 Overview.....	7-34
Create a Person Object Constructor.....	7-35
Use the Person Object as the Prototype for a Friend Object.....	7-42
INDEX.....	INDEX-1
