

# JavaScript 1.8: Web and Objects

## Table of Contents

INTRODUCTION .....	INTRO-1
Prerequisites .....	INTRO-2
Installing the Practice Files .....	INTRO-3
Software Requirements .....	INTRO-3
JavaScript Resources .....	INTRO-3
The Chapter Files .....	INTRO-3
Installation .....	INTRO-4
About the Author .....	INTRO-5
JAVASCRIPT ON THE WEB.....	8-1
Introduction to Client-Side JavaScript.....	8-2
Role of JavaScript in the Browser .....	8-2
Client-Side JavaScript .....	8-5
The Window Object.....	8-5
The Document Object .....	8-7
Event Handler Properties .....	8-14
JavaScript Placement in HTML Pages .....	8-17
Inline JavaScript Code .....	8-17
External JavaScript Code .....	8-19
Declarative Event Handler Attributes .....	8-20
JavaScript as a URL .....	8-22
Which Placement Option Should I Use? .....	8-25
JavaScript Code Execution.....	8-27
Phases of Code Execution.....	8-27
Script Execution Synchronicity.....	8-28
JavaScript Execution Timeline.....	8-31
JavaScript Threading .....	8-35
Browser (In)compatibility .....	8-37
LAB 8: JAVASCRIPT ON THE WEB.....	8-43
Lab 8 Overview .....	8-44
Dynamic Writing and Event Handlers .....	8-45
Launch External Scripts.....	8-48
JavaScript Links and Calculations .....	8-50

USING BROWSER WINDOW OBJECTS .....	9-1
Working with Timers .....	9-2
setInterval Method .....	9-2
setTimeout Method .....	9-5
Using the Location Object.....	9-10
The Sample Page .....	9-10
Putting the Location Object to Use .....	9-12
Query Strings .....	9-16
Navigation Using the Location Object.....	9-19
Working with Windows.....	9-22
Creating a Window.....	9-23
Using the New Window.....	9-25
Creating Content in the New Window .....	9-26
Calling Functions and Modifying Objects Across Windows .....	9-31
LAB 9: USING BROWSER WINDOW OBJECTS .....	9-45
Lab 9 Overview .....	9-46
Create a Clock Application .....	9-47
Create and Manipulate a Child Window .....	9-51
INDEX.....	INDEX-1
