

# **Windows Workflow Foundation Using Visual C# 2005**

## **Table of Contents**

|   |         |
|---|---------|
| INTRODUCTION .....  | INTRO-1 |
| Prerequisites .....   | INTRO-2 |
| Installing the Practice Files .....                                   | INTRO-3 |
| Software Requirements .....   | INTRO-3 |
| Sample Database .....   | INTRO-3 |
| Security .....  | INTRO-4 |
| Installation .....  | INTRO-5 |
| About the Authors .....   | INTRO-6 |
| INTRODUCTION TO WORKFLOW .....  | 1-1     |
| What is Windows Workflow Foundation? .....                            | 1-2     |
| What Types of Applications Might Benefit from Workflow Support? ..... | 1-5     |
| What You Need to Use Windows Workflow .....                           | 1-6     |
| Two Types of Workflows .....  | 1-11    |
| Activities: Workflow “Controls” .....                                 | 1-12    |
| Creating Your First Workflow .....                                    | 1-13    |
| Create a Sequential Workflow Project .....                            | 1-13    |
| Workflow Activities .....   | 1-17    |
| Add Activities to the Workflow .....                                  | 1-20    |
| Debugging Your Workflow .....   | 1-23    |
| Workflow Architecture .....   | 1-24    |
| Examine the Startup Code .....  | 1-26    |
| Two Ways of Creating Workflows .....                                  | 1-30    |
| Hosting a Workflow in a Windows Application .....                     | 1-34    |
| Create the Workflow .....   | 1-35    |
| Create the Form and Pass Parameters .....                             | 1-42    |
| LAB 1: INTRODUCTION TO WORKFLOW .....                                 | 1-49    |
| Lab 1 Overview .....  | 1-50    |
| Create the Workflow .....   | 1-51    |
| Add a While Activity .....  | 1-55    |
| Pass Parameters .....   | 1-59    |
| HANDLING CONDITIONS AND EXCEPTIONS .....                              | 2-1     |
| Introducing Conditional Activities .....                              | 2-2     |

---

*Table of Contents*

|  |      |
|--|------|
| IfElse Activity .....  | 2-3  |
| Working with the IfElse Activity .....                       | 2-3  |
| Use an Expression as a Condition.....                        | 2-5  |
| Add or Remove IfElse Branches.....                           | 2-8  |
| Use a Method as a Condition.....                             | 2-9  |
| While Activity .....   | 2-12 |
| ConditionedActivityGroup Activity .....                      | 2-17 |
| Using the ConditionedActivityGroup Activity .....            | 2-18 |
| Replicator Activity .....                                    | 2-23 |
| Using a Custom Activity .....                                | 2-28 |
| Handling Exceptions .....                                    | 2-31 |
| Using the WorkflowTerminated Event.....                      | 2-31 |
| Using the FaultHandler Activity .....                        | 2-34 |
| Using the Throw Activity .....                               | 2-38 |
| LAB 2: HANDLING CONDITIONS AND EXCEPTIONS .....              | 2-47 |
| Lab 2 Overview.....  | 2-48 |
| IfElse and While Activities.....                             | 2-49 |
| ConditionedActivityGroup Activity .....                      | 2-54 |
| Replicator and Exception Handling.....                       | 2-59 |
| FLOW ACTIVITIES.....   | 3-1  |
| Introducing Flow Activities .....                            | 3-2  |
| Delay Activity and Handling Properties.....                  | 3-3  |
| Working with the Delay Activity .....                        | 3-4  |
| Bind the TimeoutDuration Property.....                       | 3-10 |
| In Summary.....  | 3-23 |
| Listen Activity .....  | 3-24 |
| In Summary.....  | 3-28 |
| Suspend and Terminate Activities .....                       | 3-29 |
| Using the Suspend Activity .....                             | 3-29 |
| Using the Terminate Activity .....                           | 3-35 |
| Parallel and SynchronizeScope Activities.....                | 3-40 |
| Using a Delay Activity to Terminate a Parallel Activity..... | 3-43 |
| Synchronizing Access to Activities.....                      | 3-49 |
| Handling Cancellation.....                                   | 3-53 |
| LAB 3: FLOW ACTIVITIES .....                                 | 3-63 |
| Lab 3 Overview.....  | 3-64 |

|  |             |
|--|-------------|
| Use a Parallel Activity to Create the Game .....   | 3-65        |
| Make the Game Work by Synchronizing .....          | 3-75        |
| Use a Suspend Activity to Prompt for Replay.....   | 3-77        |
| <b>MAKING DECISIONS IN WORKFLOWS .....</b>         | <b>4-1</b>  |
| Using Rules in Workflows .....                     | 4-2         |
| Using a RuleSet .....                              | 4-3         |
| Using the Policy Activity.....                     | 4-5         |
| Calling Methods in Rules .....                     | 4-10        |
| Setting Priorities.....                            | 4-15        |
| Forward Chaining .....                             | 4-20        |
| Implicit Forward Chaining .....                    | 4-20        |
| Attribute-Based Chaining .....                     | 4-26        |
| Explicit Chaining .....                            | 4-29        |
| Controlling Chaining.....                          | 4-30        |
| <b>LAB 4: MAKING DECISIONS IN WORKFLOWS .....</b>  | <b>4-37</b> |
| Lab 4 Overview.....                                | 4-38        |
| Using a Policy Activity.....                       | 4-39        |
| Setting Priorities.....                            | 4-44        |
| Using Chaining .....                               | 4-47        |
| <b>WORKFLOW COMMUNICATIONS .....</b>               | <b>5-1</b>  |
| Calling Methods in the Host from the Workflow..... | 5-2         |
| Handling Cross-Threading Issues.....               | 5-2         |
| Create the Console Application .....               | 5-3         |
| Create the Interface .....                         | 5-3         |
| Create the Workflow .....                          | 5-4         |
| Create the Interface Implementation.....           | 5-10        |
| Hook up the Plumbing.....                          | 5-11        |
| Add a Windows Application Host .....               | 5-13        |
| In Summary.....                                    | 5-17        |
| Handling Host Events in the Workflow.....          | 5-19        |
| Create the Solution .....                          | 5-20        |
| Add the EventArgs Class .....                      | 5-20        |
| Create the Interface .....                         | 5-22        |
| Create the Host Application .....                  | 5-22        |
| Create the Host Interface Implementation .....     | 5-23        |
| Hook up the Event .....                            | 5-25        |
| Create the Workflow .....                          | 5-25        |

## *Table of Contents*

---

|  |      |
|--|------|
| Call the Workflow and Raise the Event.....         | 5-29 |
| In Summary.....                                    | 5-32 |
| Bi-Directional Communications.....                 | 5-34 |
| Modify the Interface .....                         | 5-34 |
| Modify the Interface Implementation.....           | 5-35 |
| Modify the Workflow.....                           | 5-37 |
| LAB 5: WORKFLOW COMMUNICATIONS.....                | 5-43 |
| Lab 5 Overview.....                                | 5-44 |
| Examine the Existing Workflow .....                | 5-45 |
| Call a Method from the Workflow.....               | 5-49 |
| Raise an Event to the Workflow.....                | 5-55 |
| CREATING STATE MACHINE WORKFLOWS.....              | 6-1  |
| Introduction to State Machines .....               | 6-2  |
| State Machine Activities.....                      | 6-4  |
| Using the State Activity .....                     | 6-4  |
| Using the SetState Activity.....                   | 6-6  |
| Using the StateInitialization Activity .....       | 6-7  |
| Using the StateFinalization Activity.....          | 6-8  |
| Using the EventDriven Activity .....               | 6-8  |
| Creating a State Machine Workflow .....            | 6-10 |
| Creating the Workflow States .....                 | 6-11 |
| Defining the State Transitions.....                | 6-13 |
| Creating the EventArgs Class.....                  | 6-16 |
| Creating the Interface .....                       | 6-17 |
| Creating the Host Application .....                | 6-18 |
| Creating the Host Interface Implementation .....   | 6-19 |
| Examining the Form's Code.....                     | 6-22 |
| Completing the Workflow .....                      | 6-24 |
| Running the Application .....                      | 6-28 |
| Circular Navigation in State Machines.....         | 6-32 |
| LAB 6: CREATING STATE MACHINE WORKFLOWS.....       | 6-43 |
| Lab 6 Overview.....                                | 6-44 |
| Define the State Machine Workflow.....             | 6-45 |
| Create an Interface and Complete the Workflow..... | 6-48 |
| Create a Windows Host Application .....            | 6-56 |

|  |      |
|--|------|
| USING AND BUILDING PERSISTENCE SERVICES .....                        | 7-1  |
| Introducing Workflow Persistence .....                               | 7-2  |
| Examining the Sample Workflow .....                                  | 7-2  |
| Life without Persistence .....                                       | 7-12 |
| Using the SQL Persistence Service.....                               | 7-18 |
| Setting up SQL Persistence.....                                      | 7-18 |
| Introducing the SQL Persistence Service .....                        | 7-20 |
| Automatic Unload on Idle.....  | 7-22 |
| Using a Configuration File to Provide Settings .....                 | 7-27 |
| Persistence and Serialization.....                                   | 7-31 |
| Creating a Custom Persistence Service .....                          | 7-34 |
| Building the Custom Persistence Service .....                        | 7-37 |
| Reviewing the Situation .....  | 7-54 |
| LAB 7: USING AND BUILDING PERSISTENCE SERVICES .....                 | 7-59 |
| Lab 7 Overview.....  | 7-60 |
| Examine the Workflow and Host Application .....                      | 7-62 |
| Configure the SQL Database and Add Configuration File Settings ..... | 7-68 |
| Add Persistence in Code .....  | 7-72 |
| USING AND BUILDING TRACKING SERVICES .....                           | 8-1  |
| Workflow Tracking Services .....                                     | 8-2  |
| Tracking Events .....  | 8-3  |
| Using the SQL Tracking Service.....                                  | 8-5  |
| Setting Up SQL Tracking .....  | 8-5  |
| Adding Tracking to a Workflow .....                                  | 8-8  |
| Querying Tracking Data by Hand.....                                  | 8-10 |
| Querying Tracking Data in Code.....                                  | 8-11 |
| Creating User Tracking Points .....                                  | 8-19 |
| Tracking the Evaluation of Rules in RuleSets.....                    | 8-21 |
| Using a Configuration File to Provide Settings .....                 | 8-25 |
| Tracking Profiles .....  | 8-29 |
| Default Tracking Profile.....  | 8-29 |
| Custom Tracking Profiles.....  | 8-33 |
| Creating a Tracking Profile in XML .....                             | 8-35 |
| Creating a Tracking Profile in Code .....                            | 8-38 |
| Tracking Profile Version Numbers .....                               | 8-46 |
| Modifying a Profile .....  | 8-49 |
| Deleting a Profile.....  | 8-52 |

---

*Table of Contents*

|   |       |
|---|-------|
| Creating a Custom Tracking Service .....          | 8-55  |
| Building a Custom Tracking Service .....          | 8-55  |
| LAB 8: USING AND BUILDING TRACKING SERVICES ..... | 8-67  |
| Lab 8 Overview.....                               | 8-68  |
| Configure the Tracking Database .....             | 8-69  |
| Use the SQL Tracking Service .....                | 8-72  |
| Create a Custom Tracking Profile.....             | 8-80  |
| CREATING CUSTOM ACTIVITIES.....                   | 9-1   |
| Introducing Custom Activities .....               | 9-2   |
| Simple vs. Composite Activities .....             | 9-2   |
| Dependency Properties in Activities .....         | 9-4   |
| Creating a Simple Activity.....                   | 9-5   |
| Create the Solution .....                         | 9-6   |
| Add Functionality to the Activity .....           | 9-6   |
| Test the Activity.....                            | 9-11  |
| Set the Activity Display Name.....                | 9-12  |
| Creating a More Complex Activity .....            | 9-15  |
| Create the LoadTextFile Activity .....            | 9-15  |
| Test the LoadTextFile Activity .....              | 9-18  |
| Adding a Toolbox Bitmap.....                      | 9-21  |
| Adding a Validator.....                           | 9-23  |
| Adding a Designer .....                           | 9-29  |
| Modifying an Activity's Theme .....               | 9-38  |
| Creating Composite Activities.....                | 9-44  |
| Creating the Activity .....                       | 9-44  |
| Using Property Promotion .....                    | 9-46  |
| Is That All? .....                                | 9-50  |
| LAB 9: CREATING CUSTOM ACTIVITIES .....           | 9-55  |
| Lab 9 Overview.....                               | 9-56  |
| Create and Test the WriteToFile Activity .....    | 9-58  |
| Add a Validator .....                             | 9-63  |
| Create a Composite Activity .....                 | 9-67  |
| HANDLING WORKFLOW TRANSACTIONS .....              | 10-1  |
| Transactions .....                                | 10-2  |
| Transactions in Workflows .....                   | 10-5  |
| Using the TransactionScope Activity .....         | 10-12 |

|   |       |
|---|-------|
| Transactions and Batches of Work.....                       | 10-14 |
| Exploring the BankAccountService Class .....                | 10-16 |
| Compensation in Workflows .....                             | 10-20 |
| Using the CompensatableTransaction Scope Activity .....     | 10-21 |
| Using the Compensate Activity .....                         | 10-34 |
| Using the CompensatableSequence Activity .....              | 10-37 |
| LAB 10: HANDLING WORKFLOW TRANSACTIONS .....                | 10-43 |
| Lab 10 Overview.....  | 10-44 |
| Transactions in Workflows.....                              | 10-45 |
| Transactions and Batches of Work.....                       | 10-55 |
| Compensation in Workflows .....                             | 10-68 |
| DYNAMIC WORKFLOW UPDATES .....                              | 11-1  |
| Introduction to Dynamic Updates.....                        | 11-2  |
| Performing Dynamic Updates.....                             | 11-3  |
| Update Steps .....  | 11-4  |
| Modifying a Workflow from the Host Application .....        | 11-6  |
| Investigate the Sample Workflow.....                        | 11-7  |
| Investigate the Host Application.....                       | 11-10 |
| Restricting Workflow Changes.....                           | 11-19 |
