

# Building Web Services Using Visual Basic 2005

## Table of Contents

INTRODUCTION .....	INTRO-1
Prerequisites .....	INTRO-2
Installing the Practice Files .....	INTRO-3
Software Requirements .....	INTRO-3
Installation .....	INTRO-3
Demonstration Applications .....	INTRO-3
About the Author .....	INTRO-4
<b>BUILDING AND CONSUMING SIMPLE WEB SERVICES .....</b>	<b>1-1</b>
The Need for Web Services .....	1-2
Web Service Technologies .....	1-3
Web Service Design .....	1-4
Using Visual Studio to Create a Web Service .....	1-5
A Web Service Example .....	1-7
Web Service Clients .....	1-12
Working with Web References .....	1-12
Additions to the Solution .....	1-14
Invoking the Web Service .....	1-17
Discovery of Web Services with UDDI .....	1-20
UDDI .....	1-20
<b>LAB 1: BUILDING AND CONSUMING SIMPLE WEB SERVICES .....</b>	<b>1-27</b>
Lab 1 Overview .....	1-28
Creating a Web Service .....	1-29
Creating a Web Page that Consumes the Web Service .....	1-32
<b>CONFIGURING AND CUSTOMIZING A WEB SERVICE .....</b>	<b>2-1</b>
Working with Complex Data .....	2-2
Working with XML Serialization .....	2-6
More Complex Data .....	2-8
SOAP Formatting .....	2-16
SOAP Encryption .....	2-19
Namespaces and Binding .....	2-21
Using Attributes for Custom Serialization .....	2-24
Configuration Files .....	2-28

LAB 2: CONFIGURING AND CUSTOMIZING A WEB SERVICE .....	2-33
Lab 2 Overview .....	2-34
Custom Shaping XML Serialization Using Attributes .....	2-35
SOAP Message Manipulation .....	2-38
Restrict the HTTP Methods and WSDL Generation .....	2-41
CALLING WEB METHODS ASYNCHRONOUSLY .....	3-1
The Need for Asynchronous Web Services .....	3-2
One-Way Methods .....	3-3
Asynchronous Web Methods .....	3-4
Asynchronously Calling Web Methods .....	3-6
Client Classes for Asynchronous Calls .....	3-9
Callback Methods .....	3-9
Web Service Asynchronous Calls Using WaitHandles .....	3-13
Web Service Asynchronous Calls Using Polling .....	3-17
Exceptions .....	3-18
LAB 3: CALLING WEB METHODS ASYNCHRONOUSLY .....	3-23
Lab 3 Overview .....	3-24
Using Asynchronous Web Methods with Callbacks .....	3-25
Using Asynchronous Web Methods with WaitHandles .....	3-28
Using Asynchronous Web Methods with Polling .....	3-30
IMPLEMENTING WSE 3.0 SECURITY AND POLICY .....	4-1
Web Service Enhancements (WSE) 3.0 .....	4-2
WSE 3.0 Security .....	4-4
SOAP Security .....	4-4
WSE 3.0 Tool .....	4-7
X.509 Certificates .....	4-15
Policy Assertion .....	4-15
Configuration of the Client .....	4-15
Configuration of Service .....	4-22
Kerberos .....	4-28
Client Implementation .....	4-28
Service Configuration .....	4-31
UserName Tokens .....	4-35
Client Implementation .....	4-35
Service Configuration .....	4-39

LAB 4: IMPLEMENTING WSE 3.0 SECURITY AND POLICY .....	4-53
Lab 4 Overview .....	4-54
Using Kerberos Policy Assertions.....	4-55
Using Username Policy Assertions.....	4-58
IMPLEMENTING WSE 3.0 CUSTOM POLICY ASSERTIONS .....	5-1
Coding an Assertion .....	5-2
No Securing of SOAP Messages.....	5-2
Securing SOAP Messages .....	5-7
Using a WSE 3.0 Custom Policy .....	5-20
Setting Up the Custom Policy .....	5-20
Securing the Web Service with Custom Policy Assertions .....	5-22
Securing the Web Client with Custom Policy Assertions .....	5-26
Coding of Policies (Not Configuration).....	5-27
LAB 5: IMPLEMENTING WSE 3.0 CUSTOM POLICY ASSERTIONS .....	5-39
Lab 5 Overview .....	5-40
Security Policy Assertions .....	5-41
Encryption and Decryption of SOAP Messages .....	5-50
LARGE DATA TRANSFERS USING WSE 3.0 .....	6-1
Exploring MTOM.....	6-2
MTOM Structure .....	6-2
The MTOM Advantage.....	6-4
MTOM and WSE 3.0.....	6-7
Implementing Large Data Transfers by Using WSE 3.0 .....	6-11
To Stream or Not To Stream.....	6-14
Another Example of Large Transfers .....	6-15
LAB 6: LARGE DATA TRANSFERS USING WSE 3.0.....	6-25
Lab 6 Overview .....	6-26
Integrating MTOM and WSE 3.0 for File Transfers .....	6-27
Implementing IXmlSerialization with MTOM and WSE 3.0.....	6-31
IMPLEMENTING WSE 3.0 SOAP MESSAGING .....	7-1
TCP and Web Services .....	7-2
SoapMSMQ .....	7-4
SoapClient and SoapService.....	7-7
Two-Way Messaging .....	7-7
Registering Messaging Services.....	7-8

Using SoapClient and SoapMSMQ.....	7-11
SoapSender and SoapReceiver .....	7-13
LAB 7: IMPLEMENTING WSE 3.0 SOAP MESSAGING .....	7-25
Lab 7 Overview.....	7-26
Work with SoapClients and SoapServices .....	7-27
Using Multitiered SoapSenders and SoapReceivers with TCP .....	7-33
IMPLEMENTING SOAP HEADERS AND EXTENSIONS .....	8-1
SOAP Headers .....	8-2
Service Code .....	8-2
Client Code .....	8-5
SOAP Header Direction.....	8-6
Unknown Headers .....	8-7
Client SOAP Headers .....	8-8
SOAP Header Exceptions.....	8-9
SOAP Extensions .....	8-12
Working with Streams .....	8-13
Initialization .....	8-14
Processing .....	8-14
Client Processing.....	8-15
Server Processing.....	8-15
Implementing Extensions.....	8-17
Web Method Attributes .....	8-17
Configuration Files.....	8-23
LAB 8: IMPLEMENTING SOAP HEADERS AND EXTENSIONS .....	8-28
Lab 8 Overview.....	8-29
Setting Up a Customized SOAP Header .....	8-30
Working with SOAP Extensions.....	8-37
OPTIMIZING AND PROTECTING MESSAGE QUEUING .....	9-1
Reliable Messaging .....	9-2
The WS-RM Model .....	9-2
RM Modes.....	9-3
RM Sequences .....	9-5
Message Queue Bottlenecks.....	9-9
Message Delivery Verification .....	9-10
WS-RM Policy.....	9-10
Message Queue Encryption .....	9-16

Message Queue Authentication.....	9-18
Correlating Message Replies.....	9-25
Message Validation .....	9-31
LAB 9: OPTIMIZING AND PROTECTING MESSAGE QUEUING .....	9-37
Lab 9 Overview.....	9-38
Policies for Reliable Messaging.....	9-39
Clients for Reliable Messaging .....	9-42
Services for Reliable Messaging .....	9-46
INDEX.....	INDEX-1
